

# OHBA Safety Pages: Ladder Safety

✓ Always check to see that the ladder will remain securely in place.

✓ Always face the ladder and maintain three-points of contact when climbing and working on ladder.

✓ Always ensure the fly section of extension ladders are properly locked in place.

✓ Never climb above the fourth rung from the top of an extension ladder or the second rung from the top of a step ladder. *(Some stepladder manufacturers restrict the use of the top two steps. Please read the ladder warning stickers and owner's manual to see what is required for your ladder.)*

✓ Never overreach to the sides of a ladder. Keep your belt buckle between the rails of the ladder.

✓ Never climb a ladder with mud, grease, oil, ice/snow or other slip hazards.

The information we provide is not intended to include all possible safety measures and controls. In addition, the safety information we provide does not relieve the Members of its own duties and obligations with regard to safety concerns, nor does Oregon Home Builders Association guarantee to the Members or others that the Member's property, job sites and/or operations are safe, healthful, or in compliance with applicable laws, regulations or standards. The Members remain responsible for their own operations, safety practices and procedures and should consult with legal counsel as they deem appropriate.
